2. Login Page :

The screenshot shows a web browser window with the address bar displaying "127.0.0.1:8000/login". The page features a light blue background with a white login card in the center. The card has a logo of three stacked cubes at the top. Below the logo, the title "Login to Your Account" is displayed in a bold, dark font, followed by the subtitle "Welcome back to AI-Based Smart Quiz" in a smaller, lighter font. The login form includes two input fields: "Email Address" and "Password". Below the "Email Address" field, there is a checkbox labeled "Remember me" and a link "Forgot password?". A large blue button labeled "Login" is positioned below the input fields. At the bottom of the card, there is a link "Don't have an account? Register".

 Detailed Review

1. What is the primary purpose of using a heartbeat protocol in a mobile ad-hoc network?

Your answer: (Not answered)

Correct answer: A. To maintain network connectivity through periodic 'hello' messages.

In mobile ad-hoc networks, the heartbeat protocol is used to maintain network connectivity by sending periodic 'hello' messages. This helps in detecting node failures and maintaining the network topology.

2. What is the primary purpose of using a sandbox environment in mobile computing?

Your answer: (Not answered)

Correct answer: A. To enhance the security of mobile applications by isolating them from the underlying system
